BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 27T.L.—The 3rd June 1915.—His Excellency the Governor having been pleased to order, under rule 31(*1*) of the Bengal Legislative Rules, 1912, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is hereby enacted as follows:—

THE SCHEDULE.

PART I.

Bengal Regulations.

ear.	No.	Short Title.	Amendments.	Areas in which amendments are to have effect	REMARKS.
1	2	3	4	5	6
810	XIX	The Bengal Charitable Endowments, Public Buildings and Escheats Regulation, 1810.	In section 7, for the words "report to Government whether it should in their opinion" substitute the words "direct whether it should".	All areas in Bengal in which the Regulation is in force.	The object of this amendment is to transfer to the Board of Revenue the power to direct sale or other disposal of escheated property. Escheat cases are virtually dealt with by the Board and reference to Government is merely formal.
822	VII	The Bengal Land-revenue Settlement Regulation, 1822.	In section 10, clause *First*, second paragraph,— (*i*) the amendment made by the Amending Act, 1903, Schedule II, Part I, is repealed; and (*ii*) for the words "shall be competent to the Governor General in Council" substitute the words "shall be competent to the Local Government or such other authority to whom the power to confirm settlements may be delegated by the Local Government by notification in the local official *Gazette*".	Ditto ...	The object of these amendments is to give power to a subordinate revenue authority to confirm settlements and to determine the distribution of profit resulting from limitation of *jama*.
825	IX	The Bengal Land-revenue Settlement Regulation, 1825.	In section 4, first paragraph,— (*i*) omit the words "and subject to the orders of Government"; (*ii*) the amendment made by the Amending Act, 1903, Schedule II, Part I, is repealed; and (*iii*) for the words "Governor General in Council" substitute the words "Board of Revenue".	Ditto ...	The object of these amendments is to delegate to the Board of Revenue the power— (*a*) to pass orders on the annulment of existing engagements with defaulting *malguzars*, and (*b*) to appoint the period for which, upon such annulment, the estate may be let in farm or held *khas*. The Board's proposals in these matters are always accepted by Government.

PART II.

Bengal Acts.

Year.	No.	Short Title.	Amendments.	Areas in which amendments are to have effect.	REMARKS
1	2	3	4	5	6
1866	II	The Calcutta Suburban Police Act, 1866.	In section 47A, sub-section (4), for the words "with the previous sanction" substitute the words "subject to the administrative control".	The suburbs of Calcutta, as defined in section 1.	This amendment is based on the Decentralization Commission's report, paragraph 259.
1866	IV	The Calcutta Police Act, 1866.	1. In section 6, for the words "Governor General of India in Council" substitute the words "Governor in Council". 2. In section 78A, sub-section (4), for the words "with the previous sanction" substitute the words "subject to the administrative control."	The town of Calcutta, as defined in section 3	These two amendments are also based on paragraph 259 of the Decentralization Commission's report.
1871	IV	The Puri Lodging-house Act, 1871.	In section 2, and in section 22, for the words "Lieutenant-Governor of Bengal" substitute the words "Commissioner of the Division"	All areas in Bengal in which the Act is in force.	It is considered that the powers under these sections may suitably be exercised by Commissioners without reference to Government.
1875	V	The Bengal Survey Act, 1875	1. In section 58, for the words "Board of Revenue", in both places in which they occur, substitute the words "Local Government" 2. In section 63, for the words "With the sanction of the Lieutenant-Governor, the Board of Revenue" substitute the words "The Local Government".	Ditto ...	The object of these amendments is to transfer from the Board of Revenue to Government the supervision and control of all survey operations and the power to make rules under the Act.
1876	VII	The Land Registration Act, 1876	In section 64, second proviso, for the word "Board" substitute the words "Commissioner of the Division"	Ditto ...	The object of this amendment is to transfer from the Board to the Commissioner of the Division the power to remit fees leviable on the registry of transfers under the Act
1879	IX	The Court of Wards Act, 1879.	1. In clause (e) of section 6, for the words "Local Government" substitute the word "Court".	Ditto ...	Amendment 1. The Decentralization Commission proposed that power under clause (e) of section 6 should be delegated to the Board of Revenue (*i.e.*, the Court of Wards under the Act). This clause was inserted by the Court of Wards Act (Bengal) Amendment Act, 1892 (IV of 1892), section 3. Since then the Local Government have not, in any case, declined to accept the Board's proposal. Consequently it is deemed unnecessary to retain this power in the hands of Government.
			2. In section 15, second paragraph, omit the words "with the sanction of the Lieutenant-Governor" and also the words "with the like sanction".	Ditto ...	Amendment 2. The object of these amendments is to authorise the Court of Wards to delegate its powers under the Act and to revoke any such delegation without reference to the Local Government
			3. In section 61,— (*i*) for the words "Lieutenant-Governor" substitute the word "Court"; and (*ii*) omit the words "on application made to him through the Court".	Ditto ...	Amendment 3. This delegation from the Government to the Court of Wards was recommended by the Decentralization Commission. The section is seldom used and it is considered that there is no reason for the Government to retain the particular powers concerned

1	2	3	4	5	6
1880	VI	The Bengal Drainage Act, 1880.	In section 39, for the words "Board of Revenue" substitute the words "Commissioner of the Division"	All areas in Bengal in which the Act is in force. In ten years nine cases came up to the Board for orders under this section, and in every case the Commissioners' recommendations were accepted
1880	IX	The Cess Act, 1880	In section 101, omit the words "with the sanction of the Commissioner"	Ditto ...	The object of this amendment is to authorise the Collector to delegate his powers and functions under Part II of this Act without reference to the Commissioner.
1882	II	The Bengal Embankment Act, 1882	1. In section 12, for the words "Board of Revenue" substitute the words "Local Government"	All areas in Bengal. 			4. In section 15, first paragraph, omit the words "of the Board of Revenue"	Ditto ...	Amendments 2, 3, 4 and 5.—These amendments are consequential upon the proposed amendment of section 12 of this Act.

			6. In section 61, first paragraph, for the words "Lieutenant-Governor" substitute the words "Commissioner of the Division".	Ditto ... The power is seldom exercised, and is well within the functions of a Commissioner.

Bengal Acts—contd.

Year.	No.	Short Title.	Amendments.	Areas in which amendments are to have effect.	REMARKS.
1	2	3	4	5	6
1884	III.	The Bengal Municipal Act, 1884	1. In section 14, second paragraph,— (*i*) after the words "such Commissioners shall" insert the words "subject to the administrative control of the Local Government"; and (*ii*) for the words "Local Government", in the two places in which they occur, substitute the words "Commissioner of the Division"	All Municipalities within the Division	Amendment 1 (*i*).—It is deemed advisable that this delegation should be exercised subject to the administrative control of the Local Government. It has already been decided to apply this principle in the case of District Boards. Amendment 1 (*ii*).—The object of this amendment is to delegate to the Commissioner of the Division the power, at present vested in the Local Government to appoint one-third of the Commissioners of Municipalities not mentioned in the First Schedule to the Act. The power in question is already, as a matter of practice, exercised in accordance with the recommendation of the Divisional Commissioner. This being so, it is important that the responsibility for the action taken should rest with those who in fact possess the power. This change of procedure would be analogous to the appointment of members of District Boards by Divisional Commissioners under the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885)
			2. In section 16, second paragraph, for the words "Local Government" substitute the words "Commissioner of the Division".	Ditto ...	Amendment 2.—The object of this amendment is to delegate to the Commissioner of the Division the power to appoint Commissioners of Municipalities in cases where the persons entitled to elect Commissioners fail to elect the whole number of Commissioners or a portion of them. (*See* remarks against amendment 1, above.)
			3. In section 17, first paragraph,— (*i*) for the words "Local Government" substitute the words "Commissioner of the Division"; and (*ii*) after the word "however" insert the words "to the administrative control of the Local Government and".	Such of the Municipalities within the Division as are mentioned in the First Schedule to Bengal Act III of 1884, as revised from time to time by orders issued under section 8 or the second paragraph of section 17 of that Act	Amendment 3 (*i*).—The object of this amendment is to delegate to the Commissioner of the Division the power to appoint Municipal Commissioners in Municipalities in which the elective system is not in force. (*See* remarks against amendment 1, above.) Amendment 3 (*ii*).—It is deemed advisable that this delegation should be exercised subject to the administrative control of the Local Government.
			4. In section 19,— (*i*) for the words "Local Government" substitute the words "Commissioner of the Division"; (*ii*) for the word "it" substitute the word "he"; and (*iii*) after the word "Act" insert the words "in any municipality in his Division."	All Municipalities within the Division.	Amendment 4(*i*) to (*iii*).—The object of these amendments is to delegate to the Commissioner the power, at present vested in the Local Government, to remove a Municipal Commissioner who has been found guilty of misconduct [illegible] the discharge of his duties.

1	2	3	4	5	6
1884	III	The Bengal Municipal Act, 1884—*contd.*	5. In section 23,— (*i*) in sub-section (*1*), for the words "Local Government" substitute the words "Commissioner of the Division", and after the word "municipality" insert the words "in his Division"; (*ii*) in sub-section (*2*), for the words "Local Government" substitute the words "Commissioner of the Division"; and (*iii*) in sub-section (*3*), for the words "Local Government" substitute the words "Commissioner of the Division", and for the word "it" substitute the word "him".	Amendment 5 (*i*).—Such of the Municipalities in Bengal as are mentioned in the Second Schedule to Bengal Act III of 1884, as revised from time to time by orders issued under section 8 or section 23, sub-section (*4*), of that Act. Amendment 5(*ii*).—Such of the Municipalities in Bengal as are not mentioned in the Second Schedule to Bengal Act III of 1884 as so revised. Amendment 5(*iii*).—All Municipalities within the Division	Amendment 5(*i*) and (*ii*).—The object of these amendments is to delegate to the Commissioner of the Division the power at present vested in the Local Government to appoint Chairmen for Municipalities mentioned in the Second Schedule to the Act and also to appoint Chairmen for Municipalities which, though they enjoy the right to elect their Chairmen, may, under sub-section (*2*) of section 23, request the Local Government to appoint Chairmen for them. The power in question is already, as a matter of practice, exercised in accordance with the recommendations of the Divisional Commissioner. This being so, it is desirable that the responsibility for the action taken should rest with those who in fact possess the power. Amendment 5 (*iii*) is consequential upon amendments 5(*i*) and 5(*ii*).

THE SCHEDULE.

PART II.

Bengal Acts—concld.

Year.	No.	Short Title.	Amendments.	Areas in which amendments are to have effect.	REMARKS
1	2	3	4	5	6
1890	III	The Calcutta Port Act, 1890—*concld*	4. The proviso to section 48 is repealed. 5. For section 51 substitute the following, namely:— "51. No new work the estimated cost of which exceeds two lakhs of rupees shall be commenced by the Commissioners until the plan and estimate thereof have been submitted to, and approved by, the Local Government."	The Port of Calcutta.	Amendments 4 and 5.—In the Bombay Port Trust Act, 1879 (Bom. Act VI of 1879), there is no such provision as the proviso to section 48 of the Calcutta Port Act. In view of this fact, and also in view of the extended power which will be exercised by the Commissioners under the proposed amendment of section 51 of that Act, the Local Government consider it desirable to surrender their power of sanctioning contracts in respect of new works. The Government of India having agreed to surrender their power of sanctioning all works the estimated cost of which exceeds two lakhs of rupees, the proposed amendment will give authority to the Local Government to sanction all works the estimated cost of which exceeds Rs. 50,000. The Government of India have proposed that the power of sanction hitherto exercised by the Commissioners under sub-section (*1*) of section 51 might with advantage be raised from the existing maximum of Rs. 50,000 to two lakhs of rupees. The amendments now suggested will effect this proposal. The words "nor shall any contract be entered into by them in respect of any such work" have been omitted in view of the proposed repeal of the proviso to section 48.
			6. In section 90, first paragraph, omit the words "when thereunto required by the Local Government." 7. In section 92, omit the words "with the sanction of the Local Government." 8. In section 97, sub-section (*1*),— (*i*) omit the words "with the sanction of the Local Government"; and (*ii*) for the words "and with the same sanction" substitute the words "with the sanction of the Local Government."	Ditto ...	Amendments 6, 7 and 8.—It is considered that the Port Commissioners are in a better position than the Local Government to judge when action is necessary under section 90, first paragraph, section 92 or section 97, sub-section (*1*). Amendment 8 (*ii*) is consequential upon amendment 8 (*i*). The Local Government do not think it advisable to give the Commissioners unrestricted power to close private wharves and jetties against the traffic of inland vessels.
1897	V	The Estates Partition Act, 1897.	1. In section 41,— (*i*) in sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board" and for the word "he" substitute the word "it"; and (*ii*) in sub-section (*3*), for the words "Lieutenant-Governor", in the two places in which they occur, substitute the word "Board."	All areas in Bengal.	Amendment 1(*i*) and (*ii*).—The object of these amendments is to transfer from Government to the Board of Revenue the power to direct that the salary of Deputy Collectors, and the cost of special establishments employed on partition work, shall be recovered as part of the costs of partitions.
			2. In section 102, for the words "Lieutenant-Governor", in the two places in which they occur, substitute the word "Board."	Ditto ...	Amendment 2.—The object of this amendment is to transfer from Government to the Board of Revenue the power to order a new allotment of the land-revenue upon separate estates formed by partition.
			3. In section 103,— (*i*) in sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board" and for the word "he" substitute the word "it"; and (*ii*) in sub-section (*2*), for the words "Lieutenant-Governor" substitute the word "Board."	Ditto ...	Amendment 3 (*i*) and (*ii*).—The object of these amendments is to transfer from the Government to the Board the power to require proprietors of under-assessed estates to make refund to proprietors of over-assessed estates when a new allotment of land-revenue is made under section 102.
			4. In section 110, sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board."	Ditto ...	Amendment 4.—The object of this amendment is to transfer from Government to the Board of Revenue the power to vest Collectors or Deputy Collectors with settlement powers for the purposes of the Act.

STATEMENT OF OBJECTS AND REASONS.

IN accordance with the recommendations of the Royal Commission on Decentralization, a general Delegation Bill, providing, with certain safeguards, for the delegation by notification to a lower authority of powers and duties vested by law in a higher authority, was introduced in the Imperial Legislative Council on the 22nd September, 1911. It was eventually decided, however, to abandon that Bill, and to substitute for it, both for India generally and for each Province, a Decentralization Bill, accompanied by Schedules in which the delegations of powers which it is proposed to effect in particular Acts are precisely indicated. A Decentralization Bill on these lines in respect (almost entirely) of enactments of the Governor General of India in Council was introduced in the Imperial Legislative Council on the 17th September, 1913, and has since become law as Act IV of 1914. The present Bill deals with those Bengal Regulations and Acts of the Bengal Council in regard to which it is considered that certain delegations can usefully be made.

2. No Act, however, which has been in existence for less than five years, has been dealt with in the Bill, on the ground that it is considered expedient at present to amend those enactments only in the working of which considerable experience has been gained. The nature and extent of the amendments contemplated in each case will be found set out in columns 4 and 5 of the Schedule to the Bill, while the reasons underlying the same are explained in column 6. Column 5 has been inserted because, owing to the territorial changes in Bengal, some of the enactments dealt with, *e.g.*, Bengal Regulations VII of 1822 and IX of 1825 and the Puri Lodging-house Act, 1871, are in force in certain areas which are not now in Bengal, and also because the amendments in section 23, sub-sections (*1*) and (*2*) of the Bengal Municipal Act, 1884, will only apply to certain Municipalities in Bengal. Column 6, which has been inserted in order to facilitate the consideration of the Bill in its preliminary stages, will be removed after the Bill has passed the Select Committee stage.

3. So far as enactments dealing with revenue and cognate matters are concerned, it is proposed to legislate in three directions. The first is in the substitution of the control of the Governor General in Council for his sanction in connection with the framing of rules, or in the elimination of control where such control is considered unnecessary. The second is in the delegation to a lower agency of certain powers which are at present vested in the Government of India, in the Local Government or in the Board of Revenue, respectively; while the third is in the transfer of certain powers from the Board of Revenue to the Local Government with a view to relieving the Board of certain of the duties at present entrusted to it.

4. The enactments which it is proposed to modify by the Bill are as follows:—

Bengal Regulations.

XIX of 1810 (Charitable Endowments, Public Buildings and Escheats), section 7.	Part I of the Schedule.
VII of 1822 (Land-revenue Settlement), section 10, clause *First*, second paragraph.	
IX of 1825 (Land-revenue Settlement), section 4, first paragraph.	

Bengal Acts.

II of 1866 (Calcutta Suburban Police), section 47A (*4*).	Part II of the Schedule.
IV of 1866 (Calcutta Police), sections 6 and 78A (*4*).

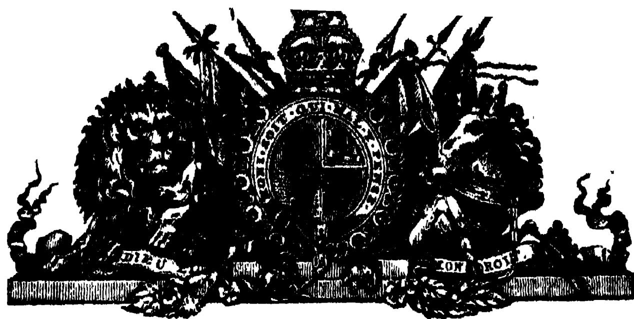
V of 1875 (Survey), sections 58 and 63.	
VII of 1876 (Land Registration), section 64, second proviso.	



IX of 1879 (Court of Wards), section 6, clause (*e*); section 15, second paragraph; and section 61. VI of 1880 (Drainage), section 39. IX of 1880 (Cess), section 101. II of 1882 (Embankments), sections 12, 13, and 14; section 15, first paragraph; section 19, last paragraph; section 61, first paragraph; and section 75. III of 1884 (Provincial Municipalities), section 14, second paragraph; section 16, second paragraph; section 17, first paragraph; section 19; section 23 (*1*), (*2*) and (*3*); section 59; section 86, first paragraph; section 279 (*1a*) and both provisoes; section 351; and section 351A. III of 1890 (Calcutta Port), section 20 (*1*); section 31(*3*); section 34 (*1*); section 48, proviso; section 51; section 90, first paragraph; section 92; and section 97 (*1*). V of 1897 (Estates Partition), section 11 (*1*) and (*3*); section 102; section 103 (*1*) and (*2*); and section 110 (*1*).	Part II of the Schedule—(*concld.*)

BRITISH POSSESSIONS.

CAUTION WHEN APPROACHING BRITISH PORTS.

No. 115 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1915), are republished :—

PART I.

CLOSING OF PORTS.

Former Notices.—Nos. 1 and 101 of 1915 (*This Office Nos. 45 and 73 of 1915*): hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

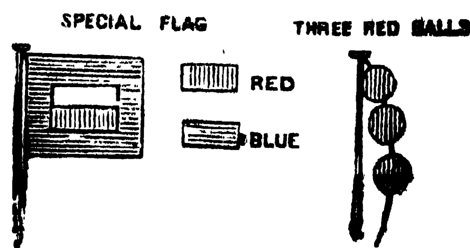
(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.



(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

SWEEPING OPERATIONS.

H.M. Vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals:—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair.

Note.

This Notice is a repetition of Notice No. 101 of 1915 (*This Office No. 73 of 1915*) with the addition of paragraph (8).

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1914.

POLITICAL DEPARTMENT.

JAILS.

DARJEELING, THE 1ST JUNE 1915.

RESOLUTION—No. 1188 P.—D.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1914.

ALSO—

The Reports for the years 1913 and 1912, and the Resolutions of Government recorded thereon.

THE total number of prisoners in the jails of Bengal rose from 12,098 at the beginning of 1914 to 13,[illegible]0 at the end of the year, the increase being

equal to the population of four or five district jails of average size. Over-crowding of the accommodation for male prisoners occurred on occasions in a number of the jails, and it is clear that the question of enlarging the existing jails or of building new jails will have to be faced at no distant date. It is noteworthy that 23 per cent. of the persons imprisoned during 1914 had been previously convicted, while the proportions in the two preceding years were 21 and 17 per cent. The daily average number of undertrial prisoners was 1439, or 13 less than in 1913; the average period of detention was also slightly reduced. Only 6 sentences of imprisonment with whipping were passed during the year. Of the convicts imprisoned, 34·5 per cent. had sentences not exceeding one month. This is an improvement on 1913 when the proportion was 36·2 per cent., but the Governor in Council would be glad to see a further reduction in petty sentences of imprisonment, the effect of which is often more deleterious than deterrent. In spite of the increased jail population, offences were fewer in number, and a smaller number of convicts were punished than in 1913, but the major punishments were slightly more numerous. The penalty of whipping was inflicted in 60 cases, as compared with 56 in the preceding year.

2. The central jails have on the whole a good health record, but the Governor in Council regrets to observe that there was a serious recrudescence of dysentery in Midnapore. The mortality during the year was 21·8 per thousand of the daily average jail population; this rate is slightly higher than in the previous year. There were no deaths in the jails at Howrah and Khulna, while in Hooghly, Berhampore, Darjeeling, Bogra, Pabna and Comilla the mortality was less than 10 per mille. The provincial mortality rate was seriously exceeded only in the Jessore, Rangpur, Dinajpur and Jalpaiguri jails, all of which draw their population from unhealthy tracts. In the last three jails new and improved hospitals are being built or have been sanctioned. In Jessore the Inspector-General attributes the excessive sickness during the year to bad management and the prevalence of flies, and the Governor in Council is glad to see that remedial measures are being taken under Lieutenant-Colonel Buchanan's personal supervision. The autumn of the year was marked by an outbreak of malaria throughout the province, and there was a considerable increase in the number of malarial cases admitted into jail hospitals. The benefit prisoners derive from the regular attention paid to their health in jails and the value of the prophylactic use of quinine are shown by the fact that, though most prisoners have suffered from malaria previous to admission, few are attacked more than once whilst in jail. Fifty-six per cent. of the convicts released during the year had gained in weight, while only 23 per cent. had lost.

3. The Juvenile Jail at Alipore, which was opened in 1908, continues to do good work, but there is much force in the Inspector-General's contention that the beneficial effects of the system are often marred owing to the want of an "After-care Association," which exists in connection with similar institutions in other countries, to obtain employment for and to watch over the boys after their release. There is here an excellent opening for philanthropic effort, as the Prisoners' Aid Society is unable to take up the work. An undertrial ward for boys awaiting trial at the Calcutta Courts has been opened in the Juvenile Jail, and a further advance in the treatment of youthful offenders has been made by the establishment in Calcutta of a house of detention, which is not a prison and in which is included a Court for the trial of juveniles under the age of 15 years. These children are not allowed, either during trial or after conviction, to enter a jail.

4. The report contains an interesting account of the part played by the Juvenile Jail in connection with the distribution of quinine. So rapid has been the growth in public favour of the quinine "treatments" in glass tubes that more than 24 million four-grain tablets of quinine were issued in this form, as compared with 6 millions in the preceding year. The value of the quinine sold was Rs. 2,48,088, the profit being Rs. 30,971, of which a large portion will be absorbed by the cost of the glass tubes and the expense of making and packing the tablets. Owing to the war, glass tubes were not procurable for some time, and tin tubes had to be used temporarily. It is expected that glass tubes will again be procurable shortly, though at a considerably increased price, but it is not proposed to raise the price at which the "treatments" are sold to the public. In other jails the usual industries were carried out with efficiency, the most notable features of the year being

the closing of the Press at the Dacca Jail and the opening of a Forms Department at the Alipore Jail.

5. The use of the improved physiological dietaries recommended by Major McCay is reported to be extending gradually, and the number of prisoners who voluntarily adopt a wheat rice dietary is increasing. The experiment has not, however, as yet been carried out on a sufficiently large scale to enable any definite conclusion to be arrived at. Owing to the increasing cost of food-grains, the cost of feeding the prisoners has again risen during the year from Rs. 40-7-6 to Rs. 44-15-6 a head. The Inspector-General gives some remarkable figures showing that since 1911 the average price paid by the Jail Department for rice and paddy has increased by 50 per cent., while the cost of pulses and wheat has increased by 43 and 33 per cent., respectively.

6. The Inspector-General has again referred to the necessity of improving the pay and prospects of the warder guard in order to attract suitable men and to retain them in the service. This question has engaged the serious attention of the Government of Bengal and the Government of India for some time past, and His Excellency in Council hopes that a final decision will not be long delayed.

7. The names of the officers who have been commended by the Inspector-General for good work have been noted. Owing to the numerous transfers of officers consequent on the outbreak of the war, the labours and responsibilities of the Inspector-General were greatly increased, and the Governor in Council desires to thank Lieutenant-Colonel Buchanan for his efficient administration of the department during a year of unusual strain and difficulty.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered also that a copy of this Resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council.

J. H. KERR,

Offg. Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE TRIENNIAL REPORT ON LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1912, 1913 AND 1914.

FINANCIAL DEPARTMENT.

MEDICAL.

DARJEELING, THE 31ST MAY 1915.

RESOLUTION—No. 80T.—Medl.

READ—

The Triennial Report on Lunatic Asylums in Bengal for the years 1912, 1913 and 1914.

READ ALSO—

The Annual Returns of the Lunatic Asylums in Bengal for 1912 and 1913 with the remarks recorded thereon by the Inspector General of Civil Hospitals, Bengal.

THE report under review deals with the lunatic asylums of Bengal as reconstituted in 1912. There are three asylums in Bengal—at Berhampore, Bhowanipur (24-Parganas) and Dacca. The figures quoted for the previous triennium refer to the asylums at these places.

2. The problem of accommodation for the insane population of Bengal is one that has been before this Government for some years, and the statistics of population are therefore of special interest at the present time. The daily average strength was 1,063·43 in 1912, 1,084·51 in 1913, and 1,068·76 in 1914, giving a mean average of 1,072·23 for the triennium as against 984·73 for the period 1909-11.

This increase has not been the result of a greater number of admissions, for although the number reached the high figure of 237 in 1912 it fell during 1913 and 1914, and the yearly average for the triennium was 200 against 218 of the previous three years. While the decline in the past two years was in part accounted for by the closure of the Dacca Asylum to lunatics from Assam, it was more probably due to the endeavour which was noticed in the last triennial review to restrict admissions to lunatics whose detention in an asylum is absolutely necessary, and to exclude harmless lunatics who could well be supported and taken care of by their friends and relations. This view finds some support in the statistics of discharges, which show a considerable falling off in the number of cases discharged as cured during the same period. The mortality has shown no great change, but the fall in the number of cures in the past two years, coupled with the number of admissions, would tend to show that care has been taken to refrain from sending the less serious cases of lunacy to the asylums, and that the asylum population consists mainly of cases in which a cure is almost hopeless. It is likely therefore in future that the number of admissions will exceed to some extent the number of deaths and discharges and cause a rise in the daily average. But the excess will not be great and in fact the average excess during the past three years was considerably less than that of the previous triennium.

3. To meet this increasing population, increased accommodation was provided in each of the three asylums in 1912, and in the last two years of the period there was room for 888 males and 206 females as compared with 754 and 196 in 1911. But the need for further accommodation is still pressing. The mean strength (1,072) approximates too closely to the accommodation available, and actually in each of the three years more than 1,100 persons were confined in one night, the greatest number being 1,134 in 1913. The accommodation at Dacca and Bhowanipur is at present just

sufficient, but Berhampore stands in great need of extension and the Surgeon-General is submitting proposals to this end. This will, however, be but a temporary expedient and will only enable matters to be carried on until the new Central Asylum at Ranchi is constructed. It is understood that the Government of Bihar and Orissa has submitted to the Imperial Government the scheme for a Central Asylum at Ranchi to accommodate 1,500 patients in which three-fourths of the accommodation will be at the disposal of this Government. But financial considerations are likely to defer the construction of the building, and in the meantime the Government of Bengal are prepared to take up the additions to the Berhampore Asylum.

4. The total average annual cost of the asylums has again risen, being Rs. 1,94,527 against Rs. 1,67,512 in the previous period. After the Public Works Department charges have been deducted, the average cost per head per annum works out at Rs. 164-14-6 against Rs. 158-0-7 in 1909-11, and the cost has risen from Rs. 161-14-3 in 1913 to Rs. 174-15-3 in 1914. This is mainly due to increase in the cost of diet. Certain revisions in the establishment have been made, and it is satisfactory to note that the increase in pay of the keepers at Berhampore and the abolition of the security hitherto demanded from them has resulted in the right class of persons being attracted to these posts and remaining in them. The extraneous receipts of the asylums are derived from manufactures and from the fees of paying patients. There was a falling off in both cases in the year 1914 when the daily average strength of paying lunatics fell to only 28·99 and unfavourable climatic conditions reduced the receipts of the vegetable garden of the Berhampore Asylum.

5. The average number of European lunatics treated rose from 58 in 1909-11 to 60 in 1912-14, and the average daily strength from 41·75 to 46·24. The need for increased and better accommodation for Europeans, and in particular the provision of a place of observation, are keenly felt. The question is connected with the proposed asylum for Europeans at Ranchi, and until this has been completed the Bhowanipur Asylum must continue to be the asylum for European and Eurasian lunatics from Bengal. Certain alterations and improvements have been made to ameliorate the lot of these lunatics, but conditions will not be entirely satisfactory until the new asylum has been built.

6. His Excellency in Council has noted with satisfaction that the health of the lunatics during the triennium under report shows a marked improvement on the previous period. It was particularly good in 1914 when only 355 lunatics were admitted to hospital as against 830, 487 and 514 in 1911, 1912 and 1913, respectively. The use of quinine as a prophylactic was responsible for reducing fever cases to an exceptionally low figure. Cases of bowel complaints were also comparatively few as a result of the precautionary measures adopted. But tubercular phthisis was again conspicuous and accounted for a very considerable proportion of the deaths. This disease has received great attention from the officers of the asylums, but despite measures of segregation, open-air treatment and careful diet, it is difficult to overcome the unfortunate habits of the insane and to ensure such sanitation and cleanliness as are necessary to eradicate the disease.

7. The Governor in Council has read with much interest and pleasure the account given by the Surgeon-General of the general measures taken for the welfare of these afflicted persons, not only in securing their physical comfort, but also in providing them with suitable employment and amusement, and his thanks are due to all the officers who have held charge of the asylums for the great attention they have paid to the health of the inmates and the steps they have taken to brighten their lives. The Governor in Council agrees with the Surgeon-General in his appreciation of the work of Captain Peebles, who has held charge of the asylum at Berhampore. His thanks are also due to Surgeon-General Harris for his report and for his careful administration during the triennium.

By order of the Governor in Council,

J. DONALD,
Offg. Secretary to the Govt. of Bengal.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND OF THE GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR 1914-15.

ROYAL BOTANIC GARDEN.

1. **General.**—Weather conditions were practically normal throughout the year. The routine work of the garden comprehends the collection of seeds and their distribution to similar institutions and to individuals all over the world, the growing of many thousands of trees and shrubs for distribution throughout India and beyond it, the cutting out of dead trees throughout the garden, the opening up of "jungly" places which are now far fewer in the garden than they used to be, the excision of redundant trees to make room for species unrepresented in the garden, the gradual enrichment of the garden in species and its gradual rearrangement on phyto-geographical lines, the keeping of the lakes and water circulation channels in good condition, and the upkeep of the garden and plant houses generally in a presentable state. All this in a garden of over 270 acres in extent, entails an amount of detailed supervision which only those with practical experience of the work can properly appreciate. It is therefore very creditable to Mr. G. T. Lane, the Curator—who, inasmuch as during the greater part of the year he was the only European trained horticulturist in the garden with only such limited help as one Overseer or at most two probationary Overseers could afford him, laboured under difficult conditions—that the general results have been so satisfactory. In addition to the routine work very briefly sketched above, several special pieces of work were undertaken. Considerable sections of the Wallich and Wight avenues were entirely renewed so as to prevent the flooding, which hitherto during the rainy season has made those avenues at times almost impassable. The large Palm House and the Orchid House were replanted. This work was entrusted to Mr. Mitra, the present senior Overseer on probation, who carried it out in very creditable fashion. East of the landing stage a considerable stretch of the river bank, which had been badly eroded, has been strengthened. This work of fortifying the river bank is, and will continue to be for several years, a serious tax on the garden resources, as much labour time and money, which normally would be devoted to the development of the garden proper have to be expended on these defensive operations. In November 1914 the old landing stage was replaced by a larger and stronger one, while its site was shifted a few yards to the west so as to bring it approximately in line with the Oreodoxa Palm avenue. So far this is satisfactory, but as far as the general population of Calcutta is concerned, there might for the greater part of the year as well be no landing stage at all, for the garden has not yet become one of the ordinary calling places of the Port Commissioners' Ferry steamers, while travelling by dinghie,—formerly a popular way of reaching the garden—is in these days of waggon-ferries, swift ferry steamers and ubiquitous launches, distinctly hazardous. As except to those who can afford to use a motor car, and not always to those, the land routes to the garden are a penance to traverse, it is no matter for wonder that the garden is far from being enjoyed by the people of Calcutta as much as it might be.

By the end of the year steps were taken towards the realization of a long contemplated project of the formation of an Economic Garden, in which would be displayed in appropriate groupings the indigenous economic species of India and those introduced or introducible thereto. More than seventy

years ago Griffith, in his report of the Garden for 1843, suggested, amongst several other excellent proposals, the formation of such a garden. Although there are not a few species of economic importance in the Garden at present, they are for the main part scattered indiscriminately and inconveniently all over its area. So a clearance is being made in the area in the north-west corner of the Garden formerly devoted to experimental agricultural cultivation. The establishment of the various scientifically staffed agricultural departments has relieved the Garden of the necessity of doing such work as these departments are now in a better position to undertake, but there is abundant justification for the Garden possessing as complete a living collection as possible of economic plants so arranged as to be readily studied by any one interested in their cultivation.

2. **Plant and Seed Exchange and Distribution.**—There is room only for the briefest reference to this important work. About 5,500 plants were received and over 40,000 distributed. The distribution of the latter was conducted on the lines mentioned in last year's report. About 400 packets of seed were received and over 800 packets distributed. In addition nearly 70 lbs. of seed of various species of trees and shrubs were sent to the new Delhi.

3. **Field Work, Herbarium and Library.**—Mr. C. C. Calder while officiating as Superintendent collected in the Eastern Himalaya. Mr. Ramaswami while officiating as Curator of the Herbarium explored the Nellore District of the Madras Presidency and brought back about 5,000 sheets of specimens. The Herbarium is as usual indebted to officers of the Forest Department and to other officers of Government and to private persons for important contributions. Space does not permit of detailed reference but the accessions represent collections made in Travancore, Madura, Burma, Assam and the Western and Eastern Himalayas. Extra-Indian contributions were received from the Bureau of Science, Philippine Islands; the Royal Gardens, Kew (Siamese plants); the Paris Herbarium (Chinese plants); and the United States Department of Agriculture (grasses). Affairs in Europe have interfered with the distribution of duplicates to that continent but over 2,000 specimens have been distributed to herbaria elsewhere.

As usual a large number of identifications were made on behalf of institutions and individuals and numerous references from all over the world on purely botanical and economic questions were dealt with.

Library work proceeded on normal lines throughout the year.

4. **Publications.**—No part of the Garden Annals appeared during the year, but there are under preparation three contributions to that publication, viz., a continuation of Dr. Beccari's fine work on the Palms, a monograph of the genus *Dioscorea* by Mr. I. H. Burkill, and an account of the Indian Euphorbias by the Superintendent. The last while on leave contributed descriptions of new species of *Euphorbiaceæ* of India and New Guinea to the Kew Bulletin and the Dutch publication "Nova Guinea," respectively.

5 **Financial.**—The revenue amounted to Rs. 542-9. Under establishment, travelling allowance and regular contingencies there was an aggregate saving of Rs. 3,952-4-3 of which Rs. 3,718-8-10 were under establishment.

CALCUTTA GARDENS.

These gardens comprised until the end of 1914 the Eden Gardens, Curzon Gardens, Dalhousie Square Garden, and the grounds of Hastings House, but from January 1915 the grounds of Hastings House have been under the Education Department.

There is nothing special to chronicle regarding the work of these gardens which has followed the usual lines during the year, albeit under difficulties as regards staff, there having been no fewer than four different officers performing the duties of Assistant Curator of the gardens during the year.

It is a matter for regret that efforts of the staff to keep some of these gardens—such as the Dalhousie Square one—in a proper state are to a considerable extent annulled by the indifference of the public to misuse of

public property, as evidenced by the ineradicable practices of treading down the grass bordering the paths—which are now broad enough for all pedestrian traffic—and making disfiguring short cuts across the lawns. So long as the Dalhousie Square Garden is permitted to be used more as a short cut from one side of the square to another than as a garden, so long are the disfigurements referred to likely to persist, despite all the efforts of the garden staff to prevent them.

* * * * * * *

The revenue from the Calcutta gardens amounted to Rs. 415-3-3. There was a saving of Rs. 3,556-11-7 on the total allotment of Rs. 43,204 for all the Calcutta gardens.

LLOYD BOTANIC GARDEN, DARJEELING.

* * * * * * *

Except for an exceptionally dry period from November 1914 to January 1915, weather conditions were normal, the rainfall being 126·25 inches. In addition to the routine work of the garden, 219 species and varieties of trees and shrubs were planted out. Species from China and Japan are most adaptable, those from the Antipodes coming next. Nearly 11,000 plants, about 3,000 bulbs and tubers and over 3,400 packets of seed were distributed, the last exclusive of seeds indigenous to the Eastern Himalaya which were transferred to the Royal Botanic Garden Calcutta for distribution. Besides purely horticultural or distributional work Mr. Cave has made several investigations of economic importance on behalf of departments, institutions and individuals, and has supplied information on such questions as the growth, propagation and pests of *Citrus*, the occurrence of locally grown coniferous wood suitable for pencil and match making, the use of *Hedychium coronarium* as a source of paper, etc. Several pounds of seed of *Dendrocalamus Hamiltoni* a bamboo, were supplied to the United States Agricultural Department for planting on the landslide of the Culebra Cut of the Panama canal.

Outside the Lloyd Botanic Garden Mr. Cave has advised and given much of his time to supervision in connection with the grounds of Government House, the Municipal reafforested areas, the three cantonments and the work of the Darjeeling Improvement Fund Committee. There was a saving of Rs. 235-10 on the total allotment for the Lloyd Botanic Garden.

* Inclusive of 1,411,093 maunds of salt issued under the credit system. Besides this quantity, 32,610 maunds of salt were issued under the credit system to inland bonded warehouses.

Compared with the corresponding quarter of the previous year and the same quarter of 1912-13, importations were less by 33·1 per cent. and 17·5 per cent., respectively, and clearances were less by 26·8 and 22·6 per cent. As compared with the corresponding period of the previous year, the decreased imports from Spain, Salif, the United Kingdom, and Hamburg and Bremen, and the increased imports from Aden and Madras, are especially noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters:—

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 7th June 1915.

Summary.—During the week under report general rain fell throughout the province. The fall was excessive in some of the Eastern Bengal districts but light to moderate elsewhere. The heavy showers interfered with the agricultural operations and caused damage to some extent to the standing crops on lowlands. The sowing of the autumn crops is practically over. Preparation of lands for the next winter rice crop continues; the seedlings are being reared in the nurseries in places. Cattle-disease is reported from ten districts. The average price of common rice for the province has risen by about 0·3 per cent., as compared with that of the previous week.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a pay for any continuing infringement.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 14th June 1915.

Summary.—During the week under review excessive rain fell in many of the Eastern Bengal and also in some of the Western Bengal districts retarding the agricultural operations and causing damage to the young plants of paddy and jute. The standing crops in the low-lying tracts in some of the Eastern Bengal districts are reported to have been submerged by the floods. The sowing of both broadcasted varieties of winter rice in the fields and of transplanted varieties in the nurseries and the weeding of the *bhadoi* crops are in progress. Cattle-disease is reported from ten districts. The average price of common rice for the province has risen by about 2·3 per cent., as compared with that of the previous week.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 16, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a pay for any continuing infringement.

No. 9.—Notification.—The following draft of (1) rules and (2) schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of all previous notifications on the subject, the Governor in Council intends to make and fix for the line of navigation known as the Madaripur Bhil channel and the Lower Kumar river as defined in Notification No. 128, dated the 26th June 1900, and Notification No. 162, dated the 22nd July 1902, paragraphs 17 and 18, is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 22nd July 1915 and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maund-age of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (1) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a pay for any continuing infringement.

REPORTS ON THE WORKING OF THE SHIPPING OFFICES IN BENGAL FOR THE YEAR 1914-15.

NOTIFICATION.

The 28th June 1915.

No. 79 Marine.—The following Annual Reports on the working of the Shipping Offices in Bengal for the year 1914-15 are published for general information.

F. A. A. COWLEY.

Secy. to the Govt. of Bengal.

No. $\frac{S.}{316}$, dated Calcutta, the 1st June 1915.

From—The Shipping Master, Calcutta,

To—The Secretary to the Government of Bengal, Marine Dept.

I HAVE the honour to submit herewith for the information of Government the Annual Report of the Shipping Office for the year 1914-15, and in doing so, to remark that the general features of the report for the current year have been considerably influenced by the events of the present war.

The number of Seamen shipped and discharged during the year under European and Indian Foreign Articles, together with the figures for the previous year, are shown in the statement below. Fuller particulars will be found in Appendix I.

ARTICLES.	1913-14.	1914-15.	Increase.	Decrease.
Shipped—				
European	832	1,170	338	.....
Indian	47,315	43,790	......	3,525
Total ...	48,147	44,960	338	3,525

Indian	43,536	38,368	......	5,168
Total ...	44,554	39,795	409	5,168

It will be observed from the above figures that the number of seamen shipped and discharged on European articles has increased, while those shipped on Indian articles show a large decrease, which is due to the dislocation in shipping and the smaller number of vessels visiting this port owing to the war.

The number of Eurasians shipped on European and Indian articles is 81 and 475 respectively, being an increase of 5 under the former and a decrease by 9 under the latter head in comparison with the figures of the previous year.

The following figures represent the number of seamen shipped and discharged at the various Consulates with the nationalities specified, detailed particulars of which are given in Appendix II. Those figures are not included in Appendix I.

Repatriation of distressed seamen.—Fifty-two seamen were repatriated on account of sickness and injury, one owing to paucity of employment, six on termination of their agreements, two owing to their steamers having been sold, and four because of their vessels being captured by the British, totalling in all 65 seamen.

A sum of Rs. 2,165-2 was incurred as incidental to war expense for the conveyance of 164 distressed seamen of ships which were sunk by the German cruiser *Emden*.

Complaints.—No reports of any consequence were made during the year.

European seamen's money-orders.—A sum of £593-16-8 was remitted by seamen to their relatives in England, compared with £473 of the previous year.

It will be observed from the above figures that there is a decrease of Rs. 9,827 in the savings in comparison with the figures of the previous year, which is due to less shipping and discharging being carried on as the effect of the war on commerce.

Expenditure.—Detailed particulars of the receipts and expenditure are exhibited in Appendix IV. On referring to this appendix it will be seen that the expenditure, as compared with the year preceding, has decreased by Rs. 8,366, due chiefly to the smaller amount of overtime earned during the year under review—a distinct reflex effect of the war on shipping—and due to reduced expenditure under the head "Cost of forms."

Administrative changes.—During the year under review the Government having approved Commander C. J. C. Kendall's application to be relieved of the duties of the Port Officer and Shipping Master, Commander G. N. Forteath, R.I.M., Deputy Port Officer, took over temporary charge on 5th June 1914, until Commander D. F. Vines, R.I.M., who was appointed Port Officer and Shipping Master, arrived on 11th July.
